

Get Hooked on FISH!

FISH! has inspired millions of lives and thousands of workplaces globally and you can be next.

The FISH! Philosophy includes 4 simple interconnected practices known as the FISH! Principals. When these powerful practices are adopted properly, they will change negative attitudes and toxic environments with amazing results as well as reinvigorate purpose through inspiration.

Empowering through FISH! addresses many things, especially cultural change and staff morale, as well as strategies for establishing a more engaging and productive workplace through personal accountability, enjoyment, and fulfilment.

The process must concentrate on positively shaping the culture of the organisation thereby making FISH! a vital component that reinforces efficiency, effectiveness, and overall personal accountability for all that take part.

Expected workshop outcomes:

- Clear overview of FISH! Philosophy & its impact on the participant's experience
- Improved communication strategies between leadership team & staff
- An introduction to the tools, tips and techniques designed to help create a more invigorating & productive work environment
- Instil more energy, passion and commitment across the company
- Clearly demonstrate the FISH! Philosophy's huge contribution as a Change Agent and how that will translate to increased productivity and ROI across the business
- Improved communication skills using the Multi-Science assessment approach as a blueprint

Even if you have already used the FISH! film in your workplace, you'll uncover solid tools to spark positive action and gain renewed inspiration within your teams. Want to find out more how FISH! can transform your workforce?
