

NLP Practitioner Certification Training

Accelerate your journey to success and transform your life

NLP (Neuro Linguistic Programming) is a proven and potent method of achieving what you want in life - a way of thinking and a set of skills that are easy to understand. These skills will give you more focus, greater self-esteem, power to make good decisions, direction, self-confidence, ability to create wealth, greater productivity, less procrastination and faster progress.

What makes our training so unique is that we can fast track you to success with a simple yet powerful pre course study program combined with face to face workshop attendance. Our NLP Practitioner training is run in 2 day blocks over a period of a month, to allow for minimum disruption to an attendee's current work schedule or we also run a 6 day straight program for those that prefer this format. In other words, attendees get 4 certifications in just 6 days of facilitator based, hands-on training. Prior to their attendance, our 20 CD on USB pre study work will ensure they are primed and ready for complete success!

In just 6 days, an attendee will learn the skills they need to understand the relationship between mind, body, emotions, and actions – and most importantly, how to use that understanding to implement change, enhance communication, build rapport, achieve goals, and positively improve on performance in all areas of an organisation. The core of NLP is to change people from within.

NLP is one of the fastest growing tools available to those who want to improve results. Many leaders and consultants in businesses have turned to the creative and innovative aspects of NLP for inspiration in organisational development, total quality management, team building and strategic planning. If you are serious about transformation, then this training is FOR YOU!
